## **DETAILED ACTION**

### ***Allowable Subject Matter***

1. Claims 1-40 are allowed.

Claims 1 and 29 are allowable over prior art since prior art fails to disclose a communications system comprising: a plurality of nodes, each node having: receiving means for receiving via an antenna a signal transmitted by wireless transmitting means; transmitting means for wireless transmission of a signal via an antenna; and, means for determining if a signal received by said node includes information for another node and causing a signal including said information to be transmitted by said transmitting means to another node if said received signal includes information for another node; each node having one or more substantially unidirectional point-to-point wireless transmission links, at least some of the nodes having plural substantially unidirectional point-to-point wireless transmission links which share at least one of a receiver of the receiving means and a transmitter of the transmitting means, each of said links being to one other node only, at least some of the nodes being the origination and termination point of user traffic.
